

INTERNATIONAL TALENT PROGRAM

We would like to invite you to the talent program in the independent digital creative agency 180heartbeats + JUNG v MATT.

The International Talent Program is a long-term internship project dedicated to helping students acquire practical skills and make their first steps in advertising. Every three months we invite the most creative and talented students to join our team.

We want to collaborate with young enthusiasts of graphic design, animation, programming, creative & digital media. We offer a great work experience, including active participation in our projects and development of innovative solutions in digital and traditional media.

180heartbeats + JUNG v MATT

We are an independent creative agency in the heart of Europe. We plan, create and perfect communication. We generate excitement. We work on behalf of local and international brands. We want all hearts to beat faster. We believe in the power of innovation.

We are proud to have won more than 200 awards and honourable mentions at Polish and international advertising festivals, among others: Cannes Lions, Clio Awards, Golden Drum, Epica Awards, Effie Awards, KTR, Media Trendy, Golden Arrow, Eurobest, and Art Directors Club of Europe.

In April 2012, we joined forces with JUNG von MATT. This partnership enables us to draw upon, where necessary, the knowledge and experience of one of the most decorated agencies in the world.
